SAFETY SETBACK INFORMATION

Required for change of Surface Location.

Distance from Well to nearest:

Building: Feet

Building Unit: Feet

Public Road: Feet

Above Ground Utility: Feet

Railroad: Feet

Property Line: Feet

INSTRUCTIONS:

- Specify all distances per Rule 308.b.(1).
- Enter 5280 for distance greater than 1 mile.
- Building - nearest building of any type. If nearest Building is a Building Unit, enter same distance for both.
- Building Unit – as defined in 100 Series Rules.

SUBSURFACE MINERAL SETBACKS

Required for change of Top and/or Base of Productive Zone. Enter 5280 for distance greater than 1 mile.

Is this Well within a unit?

If YES:

Enter the minimum distance from the Completed Zone of this Well to the Unit Boundary: Feet

Enter the minimum distance from the Completed Zone of this Well to the Completed Zone of an offset Well within the same unit permitted or completed in the same formation: Feet

If NO:

Enter the minimum distance from the Completed Zone of this Well to the Lease Line of the described lease: Feet

Enter the minimum distance from the Completed Zone of this Well to the Completed Zone of an offset Well producing from the same lease and permitted or completed in the same formation: Feet

Due to notification from Morgan County REA ("MCREA") that grid power is not available for the Ruh State North site, Verdad Resources LLC has revised the production facilities plan to utilize onsite power generation equipment in place of grid-supplied electricity. Because electricity is necessary for production activities at Ruh State North, temporary on location generators will be required.

Operator Comments:

Due to notification from Morgan County REA ("MCREA") that grid power is not available for the Ruh State North site, Verdad Resources LLC has revised the production facilities plan to utilize onsite power generation equipment in place of grid-supplied electricity. Because electricity is necessary for production activities at Ruh State North, temporary on location generators will be required. Due to the lack of available grid power, Verdad is requesting a change to the COAs approved for the Ruh State North oil and gas location. The 2A states, "Operator will use electric equipment and devices (e.g. vapor recovery units or VRUs, fans, etc.) to minimize combustion sources on site (if yes, operator will provide a list outlining which equipment and devices will be electrified)". A Form 4 will be submitted for any requested documents needed to reflect the equipment change required to power the production equipment onsite rather than with grid power.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
